Northeastern  
Illinois  
University

# El Centro - Northeastern Illinois University

Chicago, IL

The El Centro campus is an integral part of Northeastern Illinois University and serves as a staple for the Latino community of Chicago.

Completed in 2014, the El Centro building features a dynamic ventilated façade design using On Black Nature porcelain panels at its base. El Centro features a truly and unique and site-specific design. The complex geometry and futuristic approach are rooted by the use of durable natural materials like porcelain. Our porcelain rainscreen extends through the most complex parts of the design, including a double curvature wall cladded in porcelain.
