

# PORCELANOSA FACADE/

# The Nordic

# The Nordic

Queens, NY

Developed by AKI, this luxury apartment building features 9,500 square feet of Porcelanosa’s Avenue Black Nature and Boston Stone porcelain panels. The dark Avenue Black Nature panels envelop the protruding section of the building, while the lighter Boston Stone panels cover the main framework. Furthermore, the porcelain cladding is used as soffits that house recessed lighting.

Architect	AKI Development
